

## English

We will be working on improving our use of higher level vocabulary and increasing the quality of our writing rather than the quantity. We will be using guided reading time to discover what makes great writing and different sentence structures writers use for different effects. In GPS we will be learning how to punctuate speech correctly and using that in our writing. Our big writing projects this term are to produce an entire newspaper reporting a key event from World War 2 as well as writing some atmospheric acrostic poems.

## Computing

We will begin using Scratch to design a simple animation to support our learning about the World War 2 using our research.

## French

This term we will be revising our French so far and building a bank of knowledge to tell each other about daily routines and the times we do things in French. We will be able to routinely have mini-conversations in French. Additionally, we will continue to take the register in French every day.

## Art, Design & Technology

We will be making a working on projects for Christmas including designing flower pots and making Christmas cards.

## P.E.

We will be doing a variety of activities learning how to move efficiently.

# Year 4 Term 2 2018

## Music

We'll continue the Oxfordshire Voice and Instrument Programme. The children will develop their musical knowledge and skills under the leadership of Simon Grey.

## Mathematics

We will continue to improve our number knowledge, particularly working on our times tables. We will learn a variety of methods for addition and subtraction and practise using different methods for checking our answers. The key is to provide children with a range of methods that they can use. We will also be working on multiplication of two and three-digit numbers and beginning to work on division too.

## History

We will continue our learning about the World War 2 and consider the legacy of the war and its lasting effects on our area and Britain in general. We will finish off our learning by answering the questions on our topic wall and thinking about the wealth of knowledge we now have about Britain during World War 2.

## PSHE & RE

We will be studying the Christmas story in the run up to Christmas and considering the thoughts of the different people at the time.

## Science

We will be learning about the water cycle and the importance of condensation and evaporation. We will be conducting a series of experiments regarding this and finding out how to develop our own fair tests.
