

## English

We will be using our cross-curricular knowledge to focus on writing non-fiction texts, in particular writing travel brochures based on Tudor England as well as writing travel advice for children going on a residential trip. Following our residential trip we will be writing a report on that.

## Art, Design & Technology

We will be designing and making our own T-shirts ready for our residential trip.

## French

We are enjoying using our French more and more in everyday conversations and we will be building on this as well as extending our knowledge of hobbies and using a dictionary to support our French learning.

## P.E.

We will be learning different types of athletics as well as developing our dance techniques and exploring different types of dance.

## Residential trip

A big focus for this term for Year 4 is our residential trip. Learning about various topics as well as preparation for the stay will feed into lots of areas of the curriculum.

## PSHE & RE

Our RE theme will help us understand more about Hinduism which is central to the lives of most people living in India. During our PSHE sessions we will be exploring the theme of Changes through our circle time sessions

## Computing

We will revisit computer programming using SCRATCH. We extend our knowledge of programming building towards making our own computer game.

## Music

Oxford Voice and Instrument Programme.

## Mathematics

We will continue to practice and consolidate our key maths skills, particularly times tables is solid as well as addition and subtraction. We will look at interpreting graphs; bar charts, pictograms and tables. After that we will revise/practice column addition and subtraction, long and short multiplication and short division.

# Year 4 Term 5 2019

## History

We will be learning about Tudor England which is our main topic for these last two terms of Year 4.

## Science

Our topic this term is effect of climate and environment on living things – this is an extension of our term 4 topic where we learnt about animals and their habitats and how to classify animals. We will tie our learning this term into aspects of our residential trip.
